

Workplace Massage

A special treat for hard-working people!

*Enjoy a Workplace Massage
and return to work refreshed, relaxed, and rejuvenated!*

Details:

The **Workplace Massage** is typically a 15-minute massage, either at your desk or at a table, which is perfect for working out tension in your neck and shoulders. Conditions such as **carpal tunnel syndrome**, **tennis elbow**, **TMJ dysfunction**, and **headaches** from tense neck muscles can all be significantly improved with just 15 minutes of massage on a regular basis. Licensed Massage Therapist, Howard Northrup, uses techniques that have helped thousands of clients in Brevard County feel better since 2002.

The cost for a **Workplace Massage** is \$15, payable in cash or personal check. Or you can choose to have a 30-minute double session massage for \$30, which allows Howard more time to work multiple areas, such as your low back, arms, and/or hands.
